

TIB KAT® 725

TIB KAT® 725 is a proprietary formulation which can be used as a catalyst in following applications:

- curing of MS-polymers
- manufacturing of polyisocyanurates
- crosslinking of maleic anhydride containing polymers with polyols
- cocatalyst for polymers with polyols

TIB KAT® 725 shows a high compatibility and miscibility with low polar reaction partners due to its special composition. It is highly viscous and is also available in different formulations of lower viscosity.

The dosage of **TIB KAT® 725** depends on the application and is typically between 1-5 %.

Product data

Chemical formula	proprietary
Chemical name	proprietary
CAS-No.	proprietary are given
Molecular weight	proprietary
Delivery from	liquid
Colour	colourless

Typical Data

Density (20 °C)	0.97 g/ml
-----------------	-----------

Storage

TIB KAT® 725 can be stored at room temperature in original sealed packaging more than 12 months.

Packaging

Packaging size upon request

Special advice for security

Information concerning:

- classification and labelling according to the regulations governing transport and hazardous chemicals
- protective measures for storage and handling
- safety measures in case of accident and fire
- toxicity and ecological effects

is given in our material safety data sheet.

Customs Tariff No.: 3815 9090
