

TIB KAT 813

TIB KAT 813 is a formulation of a zirconium chelate complex in *n*-propanol.

TIB KAT 813 can be used as a catalyst in crosslinking of polyurethanes or hydrolysis condensation reactions of siloxanes or silane modified polymers.

Storage

TIB KAT 813 hydrolyses in contact with water. It can be stored at least one year if kept closed in the original packaging.

Packaging

packaging size upon request.

Special advice for security

Information concerning

- classification and labelling according to the regulations governing transport and hazardous chemicals
- protective measures for storage and handling
- safety measures in case of accident and fire
- toxicity and ecological effects

is given in our material safety data sheet.

Customs Tariff No.: 3815 90 90

Product Data	
Chemical name	Zirconium chelate
Appearance	Yellow liquid
Typical Properties	
Density	1.05 g/ml
Zr content	11.7 %

Issue 2 / Feb 24
