

TIB KAT 220

TIB KAT 220 is a liquid catalyst based on a monobutyltin derivative. **TIB KAT 220** is applicable for esterification and polycondensation reactions.

The main applications for **TIB KAT 220** are:

- alkyd resin synthesis
- production of plasticizers
- production of saturated and unsaturated polyesters
- curing of polyurethane systems

Product Data

| | |
|------------------|--------------------------------------|
| Chemical name | Monobutyltin tris-(2-ethylhexanoate) |
| CAS No. | 23850-94-4 |
| Molecular weight | 605.4 g/mol |
| Appearance | clear liquid |

Specification

| | |
|------------------|----------------------------|
| Tin content | 18.8 - 20.6 % |
| Density (20°C) | 1.1 -1.2 g/cm ³ |
| Colour (Gardner) | ≤ 3.0 |

Storage

TIB KAT 220 can be stored at least one year if kept closed in the original packaging. Sensitive to frost.

Packaging

200 kg drum and 1000 kg IBC,
other packaging size upon request.

Special advice for security

Information concerning

- classification and labelling according to the regulations governing transport and hazardous chemicals
- protective measures for storage and handling
- safety measures in case of accident and fire
- toxicity and ecological effects

is given in our material safety data sheet.

Customs Tariff No.: 2931 9000
