

## TIB KAT<sup>®</sup> 320

**TIB KAT 320** is a liquid dioctyltin based catalyst.

**TIB KAT 320** is suitable for the condensation of silicones, especially for the production of RTV silicone resins. Besides this **TIB KAT 320** is especially advantageous for the production of coatings based on polyurethanes, because it shows a high degree of compatibility in the formulation. Concentrations between 0.01 – 1 wt.-% according to the application have been proved as advantageous.

### Product data

Chemical description	Dioctyltin carboxylate
Appearance	clear liquid at RT / 25°C
Melting point	≥ 20 °C
Chloride content	< 0.1 %

### Specification

Tin content	> 17 wt.-%
Colour (Gardner)	≤ 5

### Storage

**TIB KAT 320** can be stored at least one year if kept closed in the original packaging; sensitive to frost.

### Packaging

200 kg drum,  
other packaging size upon request.

### Special advice for security

Information concerning:

- classification and labelling according to the regulations governing transport and hazardous chemicals
  - protective measures for storage and handling
  - safety measures in case of accident and fire
  - toxicity and ecological effects
- is given in our material safety data sheet.

**Customs Tariff No.: 3815 90 90**

Issue / Oct 16
