

## TIB KAT® 721 W

**TIB KAT 721 W** is a liquid catalyst based on bismuth. It can be used for curing waterborne polyurethane formulations. The catalyst is supplied as 50% aqueous solution.

### Product data

Chemical formula	Bismuth catalyst
State of aggregation	clear yellow liquid

### Specification

Bismuth content	19.0-21.0 %
Density 20°C	1.360-1.410 g/ml

### Storage

**TIB KAT 721 W** can be stored for at least one year if kept closed in the original packaging. The product is susceptible towards light.

### Special advice for security

Information concerning

- classification and labelling according to the regulations governing transport and hazardous chemicals
- protective measures for storage and handling
- safety measures in case of accident and fire
- toxicity and ecological effects

is given in our material safety data sheet.

**Customs Tariff No.: 38159090**
